WORKSHOP WITH JANNA OLSON

Hidden Gems: What we can learn from working with students who learn slowly.

Join Janna as she shares many areas of her teachings that have been enriched by deepening the understanding of how children learn music.

We can learn a lot from students who, for a variety of reasons, learn more slowly (non-practicers, learning disabilities, anxiety, distraction etc.). We will explore these areas together and share how to bridge these learning gaps.

Janna's holistic perspective to discussing learning motivation is a topic you won't want to miss!!

Please RSVP by Monday, May 1st to confirm your spot. Seating is limited.

**Productive
Practicing**

**Encouraging
Musical Growth**

**Tips for Slow
Progressing
Students**

**Goal Oriented
